NOTICE (important).

Customers will please read this Notice carefully, thereby saving themselves, as well as us, a great deal of trouble, and sometimes extra expense.

Our Terms are Cash. The best and safest way to send money is by Post Office Order, Registered Letter, or Draft. When this is not convenient, we will send goods C. O. D., where orders exceed \$5.00; for a less amount cash must accompany the order. Prices quoted in this Catalogue are the prices in New York; we box and ship goods free of charge, but all Express charges, both on goods and for returning money (if sent C. O. D.) must be paid by the parties ordering. Always state distinctly where goods are to be sent, and the name of the Express Company at your nearest station. Publications mentioned in this Catalogue will be sent by Mail, postpaid, on receipt of price.

Sample Belts, Balls, Caps, Spikes, Stockings, small lots of Fish Lines and Hooks, will be sent by Mail, provided the money is sent with the order, with an additional 6 cents an ounce to prepay the postage.

Bats, Shoes, Skates, and all bulky goods sent by Express only.

Persons sending for goods made to order should give us at least one week's time to make a complete outfit for nine men.

In ordering goods, please order by numbers, as in Catalogue. Goods not mentioned and made to order, will be charged extra.

If you want to save money, send your money with the order (as mentioned above), thereby saving the return C. O. D. charges.

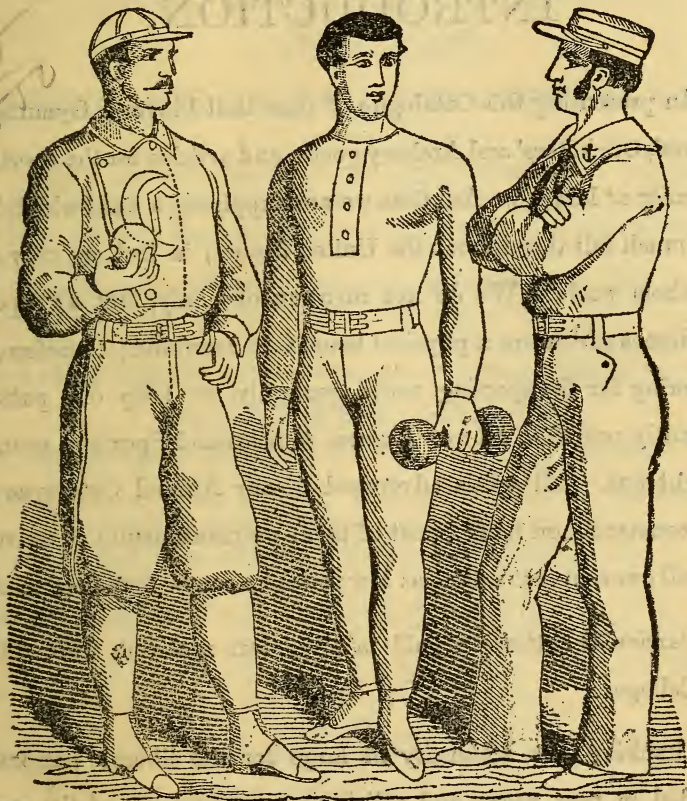

We are always willing to give advice, or answer any questions in our business, without charge.

INTRODUCTION.

In presenting this Catalogue of Base Ball Players', Gymnasts', Skaters', Cricketers' and Archery goods, and articles for the sporting fraternity at large, we feel that we are supplying a want which has been much felt throughout the United States; in fact, we may say the whole world. We do not mention one only, but all Sports and Games which are a physical benefit to mankind; therefore, in pioneering for the sporting world generally, we keep our patrons constantly posted in all new Games, Articles and Sports as soon as brought out. All goods advertised in our Annual Catalogue we keep constantly on hand (most of them we manufacture ourselves), and will guarantee to sell at as low prices as can be found elsewhere.

Particular attention paid to all orders received from Clubs and Colleges.

Thanking the fraternity at large for the liberal patronage extended in past years, and soliciting a continuance of the same,

We remain,

Yours respectfully,

PECK & SNYDER.

PRICE LIST

No. 9. Colored Patent Leather.....	24 00

For Illustrations of the foregoing styles, see corresponding Nos. on Illustrated page of Belts, Nos. 1 to 9. The workman-ship on these belts is first-class. The difference in price between colored and black leather is the cost of the leather only. They are all made the same.

IMPORTED WORSTED WEB BELTS.

These belts have become extremely popular among ball play-ers, gymnasts, and the boating fraternity, where it is necessary that nothing should impede the motion of the body in the various attitudes. This has been the objection to heavy leather belts, and thus these are preferable. These belts are made of the best material, $2\frac{1}{2}$ inches wide, and made any length to suit the size of waist. We now have in stock the following thirteen different styles:

	Per Doz.
No. 10. (see illustration.) White Centre, Red Edge.....	\$9 00

No. 22. " " Red and " " " " " " " " " "	9 00

The above styles correspond with the similar numbers, 10 to 22 on our colored sheet.

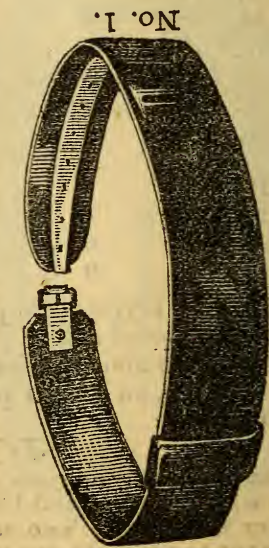

Any of the above styles, with name of Captain or name of Club on back, on leather panel, leather letters to match, \$3 per dozen extra.

NOTICE.

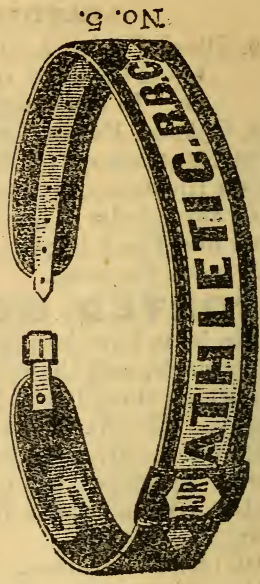

Please when ordering goods from colored plates do not cut the book, but send the *number or name*, and all will be correct.

Every ball player and lover of legitimate sports, which we endeavor to promote, we trust will observe this.

Directions for Fastening Taylor's Safety Spike.—Place the spike on the shoe (as represented in the cut) with the wide spur or spike in front, 1 1-3 inches from the end of the sole to the wide end of the spike. Use an awl to make holes for screws, then drive the screws securely down to place.

No. 129. Peck & Snyder's new and improved Shoe Spike, patented May 10th, 1867.

These Spikes are so made that, with a key which accompanies each set, they can be put on or taken off in three minutes. They can be fastened on any kind of a boot or shoe, and after use in the

field can be worn in the streets without injury to the spikes, shoes, or feet. Fig. 1 represents the round spikes, which can be put on any ordinary boot or shoe after it is made; and with key (Fig. 2) the screws or points can be taken out or inserted at pleasure. Fig. 3, the square or oblong, can be inserted between the soles of the boots or shoes when made to order, the screws or points being inserted or removed at pleasure, same as Fig. 1. Each set is put up in a neat box, and in so small a compass as to be carried in the vest pocket. Per doz. set.....\$12 00

B. B. HAWSE'S PATENT LAWN TENT

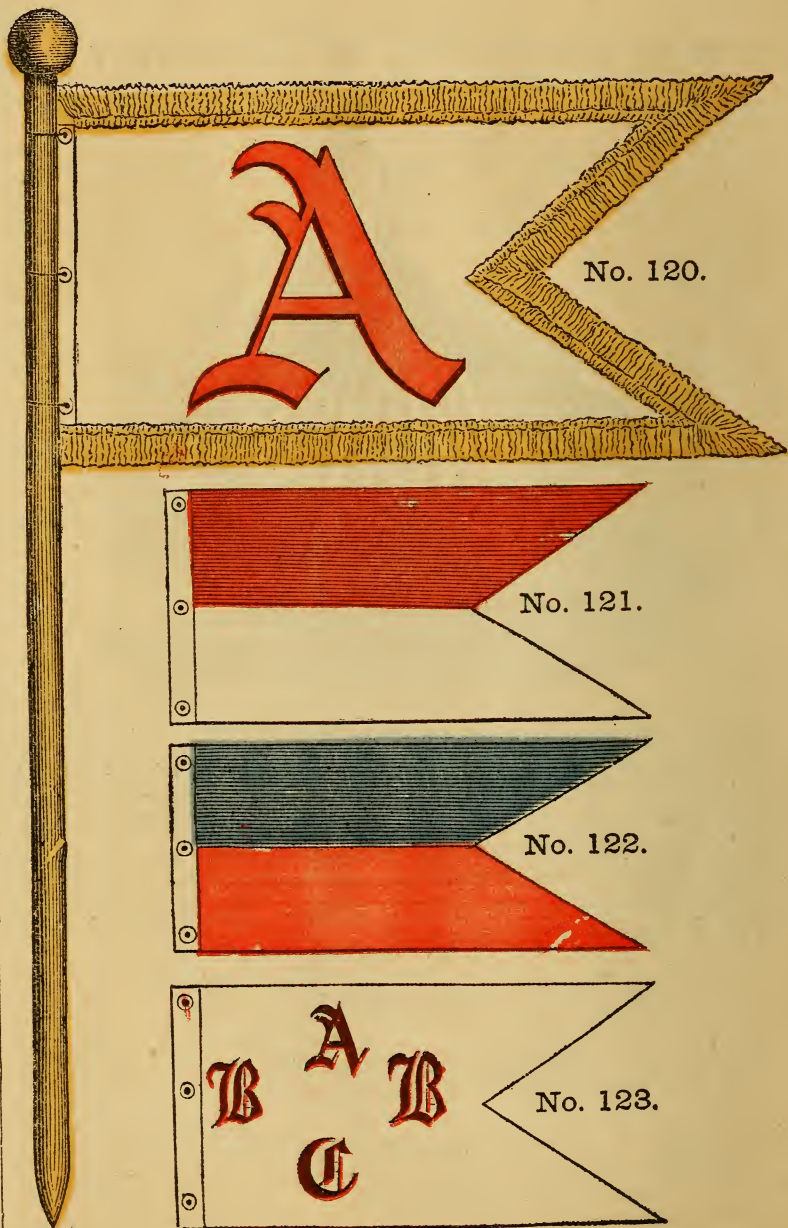

Covered with Italian Awning Striped Goods, are both elegant and comfortable; a complete protection from sun and rain; can be spread or closed by a child as quickly as an umbrella, are easily moved, and no danger whatever of injury in transportation to any distance. For beauty and for ease in handling, they are far superior to the tents that so universally adorn the fine lawns of Europe. Having five sides, they are pentagonal in shape. The walls, made in two parts, may be left open to any extent or may be closed entirely. (See cut of Field or Camping out Tent next page.)

AMUSETTE, Or PORTABLE FAMILY BILLIARDS.

This game has met with flattering success wherever introduced, and there is no reason why so popular a game should not meet with a ready sale everywhere, as good players pronounce it an excellent substitute for regular Billiards. The implements are as follows :—

4 Clamps or Corner Posts ; 3 Coloured Cords (prepared for the purpose), each 18 feet long ; 4 Boxwood Balls, coloured, in imitation of regular Billiard Balls, and handsomely polished ; 2 Cues (same as used on large table, but somewhat smaller) ; 1 Bridge ; 2 Dial Markers for keeping game ; 4 Polished Pins, to represent pockets.

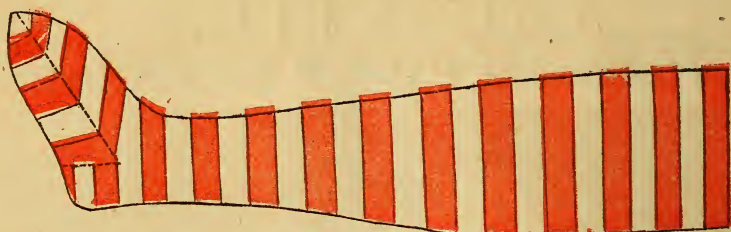

The Cords will be found equal to the best cushions. It is packed (with exception of the Cues) in a small box (8 in. by 6 in.) ; is not cumbersome or bulky ; can be adjusted to a table in five minutes, and removed in as short a time, and can also be packed in a trunk and carried when travelling.

Those accustomed to playing Billiards can do so at home, upon their own dining or sitting room tables, with as much skill and pleasure as upon a costly Billiard Table. In consequence, AMUSETTE furnishes an endless fund of amusement for the household circle, as the fascination of Billiards is well known. The expense and inconvenience of a table has heretofore been the only restriction to the *growing popularity of this truly scientific and beautiful game.*

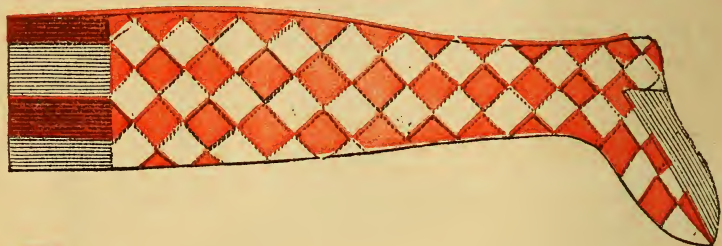

AMUSETTE can be played at all seasons.

COMPLETE SETS, PRICE \$6.

Extra Balls and Cues furnished, if desired. Also, Ivory Balls at moderate price.

QUACKENBUSH'S

NEW TARGET AIR RIFLE.

There being an increasing demand for a good "Air Rifle," we take the pleasure of placing one before the public, trusting that its merits will soon win it rapidly into favour.

Those desiring a good article of the kind, cannot fail to appreciate the superior advantages of this over any other.

The price is within the reach of all. Five dollars to be invested in sport cannot be applied to better advantage than the purchase of one of these Rifles.

As a parlour game for Ladies and Gentlemen, it has not an equal.

DIRECTIONS.

Pull the Barrel B forward as far as *possible*; care should be taken not to press on the Trigger, as the Piston passes and is held by it; insert the Dart in the Breech of drawn-out Barrel as far as convenient; press down the Spring E, and return the Barrel to its original position, pushing it firmly back. When doing as above directed, it is ready for use.

AVOID SNAPPING OFF UNNECESSARILY WHEN NOT LOADED. Two or three drops of oil should occasionally be put in at the Trigger and Breech when the Barrel is drawn out.

The cut illustrates the principle, and is shown with the Barrel drawn out and Dart inserted; the Spring is compressed, and rests against the Piston C, which is held by the Trigger D. The Barrel is to be then returned back into the Breech K. Pulling the Trigger releases the Piston; the force of the compressed Spring drives it back, expelling the air out through the opening K and Barrel, driving the Dart before it.

Each Rifle is put up in a neat box, with three Darts and two Targets.

Price of Rifle complete, \$5.

Sent by mail, postage prepaid, to any part of the United States on receipt of \$6.50.

Sent by Express on receipt of price, or C. O. D. if preferred.

Darts per dozen, \$1. Targets, postage prepaid, 5c.

Liberal discount to the trade.

7.—	11 $\frac{1}{4}$ „ „ „	4 00

Every Pair warranted as represented.

Single Roller, Axle, Steel Collar and Washer, for repairs,
complete, 25 cents per set.

This Skate is neater, lighter, and more durable than any Skate yet offered.

The foot-plate is of sheet iron, with mountings (well secured), which will not cause pain or injury to the feet.

The axle runs through a steel collar upon which the wheel revolves, thereby preventing friction.

The roller is made of solid vulcanized rubber, and will not become soft or peel off when in use.

N.B.—We would respectfully call your attention to the notice of our American Club and other Ice Skates, which will be found elsewhere in this Catalogue.

IMPROVED PARLOR TABLE CROQUET.

Lovers of Croquet can now convert their Dining or Sitting Room Tables into Croquet Boards at a moment's notice and a trifling expense. By the introduction of this New Game, the expense of a regular Croquet Board (\$20 or \$25) is saved.

The Apparatus consists of Four Clamps secured at each corner of the table. A substantial Webbing Belt is then buckled round; this forms the fender, and acts as an elastic cushion—the Balls rebounding as well as from a Rubber Cushion. (The picture on opposite page shows how the Game is applied.) The Wickets are weighted so as to stand firmly, and at the same time not interfere with the rolling of the Balls. The Stakes are loaded.

Each Set, packed in a neat box, consists of 8 Balls, 8 Mallets, etc.

No. 1.	Balls and Mallets of Maple, finely polished, Clamps handsomely bronzed. Complete Set ..	\$5 00

TOY STEAM BOATS.

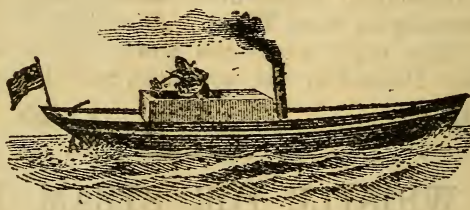

The **LATEST** and greatest **NOVELTIES** yet produced, and just the articles for the Spring and Summer trade.

We have just produced something novel and of great interest in the way of *Steam Toys*, being perfect working *Steam Boats*, to run in water. They are of two distinct designs, both of which have been patented. They will run for forty minutes without replenishing, have been thoroughly tested and are now ready for the trade.

No. 1. With Side Wheels, eleven inches long, four and one-half inches wide, and four inches high. The hull is of tin, beautifully painted and ornamented; the boiler and machinery is of brass; the keel is ingeniously converted into a lamp, for the purpose of generating the steam in the boiler. The boat is supplied with a rudder, which can be set to run in any direction. Each boat is warranted to work perfectly, and is perfectly safe—explosion is impossible. The invention of Mr. E. P. Ryder.

Each.....\$2 00.

No. 2. A Propeller, eighteen inches long, 3½ inches wide and four inches high. The hull is wood, handsomely and durably painted and ornamented. The arrangement for connecting the propeller shaft is a recent invention of Mr. James E. Dodge; the boiler and machinery is of brass, and all warranted to work well in water.

Each.....\$2 50.

Instruction in the INDIAN CLUB EXERCISE

Saml. A. Wheelwright

TEN NEW ILLUSTRATIONS, Cloth, \$1.00

PECK & SNYDER, 126 Nassau St., New York.

Adopted by the Board of Education of the City of New York.

The Gymnasium at Home, Utility and Amusement Combined.

BARNETT'S PATENT PARLOR GYMNASIUM AND CHEST EXPANDER,

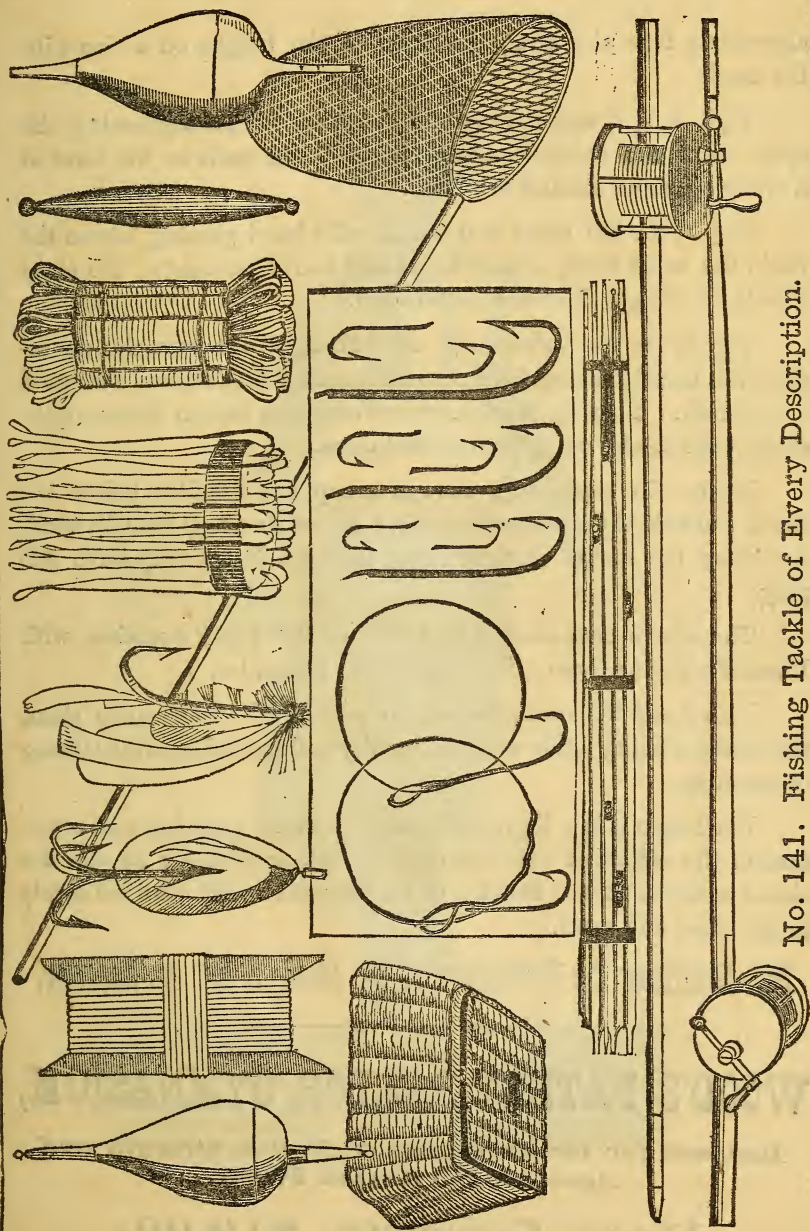

*For the Young, Old and Middle-Aged ; For the Narrow-Chested ;
For the Round-Shouldered ; For Spinal Distortions ; For
Dyspeptics ; For Ladies Sitting at the Sewing Machine ;
And all Persons engaged in Sedentary Employment.*

No. 2.....each \$1.00.
No. 3.....“ 1.25.

No. 4.....each \$1.50
No. 5.....“ 2.00

Figs. 1 and 2 are exercises especially adapted for the shoulders and chest—the arms being extended behind, raised and lowered

alternately from the level, as shown, to the height on a line with the head.

Figs. 3, 4, 5 and 6 show the exercises for strengthening the spine, arms and chest—the movements being made in the form of a circle over and around the head.

Fig. 7, for the arms and wrists—the band passing across the back, the arms being straightened and bent alternately; the chest should be always thrown well forward.

Fig. 8, for the wrists—the arms straight out from the shoulders, the handles being held perpendicularly, then stretch the hand *very slowly*. This is one of the finest exercises known for strengthening the muscles of the wrists and arms.

NOTE.—In exercising, always grasp the handles below the band, and hold them perpendicularly; throw the chest well forward, and keep the mouth slightly open that the lungs may have full play.

The above cuts show but a few of the many exercises with Barnett's Parlor Gymnasium and Chest Expander.

In schools the exercises can be performed by an entire class, the motions being made with uniformity and precision, either sitting or standing.

For ladies it is a light and graceful parlor exercise, and counteracts the effects of bending over a book or sewing; as also for clerks at the desk, the benefits of its uses not being confined solely to the chest and arms.

For Equalizing the Circulation of the Blood, it has No Superior.

WOOD'S PATENT PARLOR GYMNASIUM,

Agility to the Human Frame.*

THE NEW PATENT CLIPPER CLUB SKATE.

FOR EITHER LADIES OR GENTLEMEN. SIZES, 8½ TO 11½ INCHES.

This Skate is offered as a new and superior substitute for the various styles of Club Skates heretofore in use, secured to the foot by means of the transverse screw and clamps, and heel button. While combining all the advantages of the old style, the substitution of the Patent Diagonal Clamps, and the Longitudinal Screw, is a novel and valuable device. The Skate is thus rendered self-centering upon the foot, and all lateral motion is prevented, by the firm bearing of the clamps against the stud. The longitudinal arrangement of the screw also enables it to be placed close to the foot plate, and far back, out of the way of the ice when the skate is inclined, and in a more convenient position for using the key, and also renders it less liable to loosen when in use.

Made of welded steel and iron, and in quality and finish warranted fully equal to the best.

Price, per pair, full polished	- - - - -	\$6 00.
Do. Blued Tops	- - - - -	5 00.
Either of the above, all Nickel Plated	- - - - -	\$2 00 a pair extra.

NOTE.—IN ORDERING SAMPLES, SEND LENGTH OF SHOE IN INCHES, FROM HEEL TO TOE.

THE AMERICAN CLUB SKATE.

FOR EITHER LADIES OR GENTLEMEN. SIZES, 8½ TO 11¼ INCHES.

We would call the particular attention of Dealers and Skaters to the above Skate. After the severest tests for the last two years, and the universal satisfaction it has given, we can confidently recommend it as the only perfect, Self-Adjusting Skate now in market. No Heel Plates being required, it is readily fitted to any boot by simply turning the set-screw, and when once adjusted is always ready for use. It is locked or unlocked in an instant by the motion of the lever, and forms a firm and reliable fastening, which cannot loosen in the least while skating. These Skates are made in a superior manner, of the best welded and tempered steel, and being simple and durable in construction, must become very popular. EVERY PAIR WARRANTED.
